

TagMatiks Jewelry RFID Label

SKU: TAG-EK-JEWEL

Next Generation RFID Label to Tag your Jewelry and High End Goods

Use the TagMatiks Jewelry RFID Labels to tag your high end goods including jewelry. This speciality RFID label is carefully crafted to be attached to small assets that require a high level of attention. The RFID label doesn't interfere with the day to day visual appearance and utilization of showcasing jewelry.

The TagMatiks Jewelry RFID Labels is also designed to create separation from the jewelry to overcome traditional challenges that are with applying labels to metallic objects. The benefits of using RFID to track jewelry include improved visibility to inventory, reduced labor to conduct inventory counts and improved customer satisfaction.
