TronRFID HD label is well-suited for diverse industrial applications due to its reliable performance on various non-metallic materials like plastic, corrugated cardboard, and glass.

The TronRFID HD Label incorporates a robust antenna design, ensuring reliable performance in close proximity to materials characterized by elevated dielectric constants or items exhibiting substantial moisture/water content like fruits, vegetables, fish and human body.

Applications:

- Box Level Tagging
- Smart Advertising
- Inventory Management
- Warehouse Management
- Asset Management
